Notes

[1] Net Profit & Loss - Includes all fees, expenses, interest, dividends, realised and unrealised capital gains.

[2] A - Contributions and withdrawals include transfers.

B - Other income consists of income not specifically defined under the movement summary.

C - Closing Value is the current net asset value of your investment portfolio on the reporting date, including unrealised capital gains/losses, any income accruals and less any deductible expenses/fees. Other trading costs include securities transfer tax, settlement and administration, investor protection levy and value added tax.

[4] Dividends include: local dividends, REIT distributions and foreign dividends including the withholding tax paid on each.

[5] This is the cumulative performance of your composite portfolio which includes all investments, dividends, interest and any other income and/or costs. Therefore the return is calculated net of all fees. * Values appear as rounded to two decimal places or whole numbers on the statement, however all values are calculated to 4 decimal places on our system and therefore in the account.
