Disclaimer

The Annual Management fees are calculated by the Manager each month based on portfolio costs and charges; and can vary from month to month. The Portfolio actual annual management fee is quoted on the Minimum Disclosure Document (MDD) for the respective month.

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the cost incurred when you invest in different financial products. It is expressed as a percentage of your investment amount. The EAC calculation assumes that an investor terminates his or her investment in the financial product as the end of the relevant periods.

Obtain the costs associated with your investment prior to investing by using the EAC calculator which is available on our website at <http://www.satrix.co.za>
